## about us

Promethea is a dynamic group of specialized scientific companies united by a shared goal: to **advance the agrifood industry promoting sustainable innovation, ensuring quality and enhancing safety.**

Driven by a commitment to excellence, teams of experienced scientists, researchers and consultants operate in state-of-the-art laboratories and facilities equipped with the latest technologies to deliver **comprehensive and innovative R&D platforms, trusted laboratory analytics and expert consultancy.**

## the group

Bioecopest is the CRO focused on studying the biological activity of active substances and formulations.

Promethea Biochem Solutions is the CRO dedicated to delivering innovative tailored solutions in formulation chemistry.

Biosafe laboratories is dedicated to laboratory testing for safety and quality in the agrifood industry.

## our main solutions

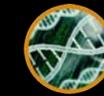

### Efficacy studies

from lab R&D to GEP field trials

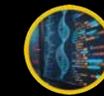

### DES

Deep Eutectic Solvents R&D platform

### Multi-omics studies

genomic, proteomic, transcriptomic

### CompàreGenome

pipelines for biological data analysis

### Formulations

solid and liquid micro-encapsulated

### Actives extraction

with innovative techniques

### Laboratory testing

environmental, food, feed, Ag testing

# our hubs

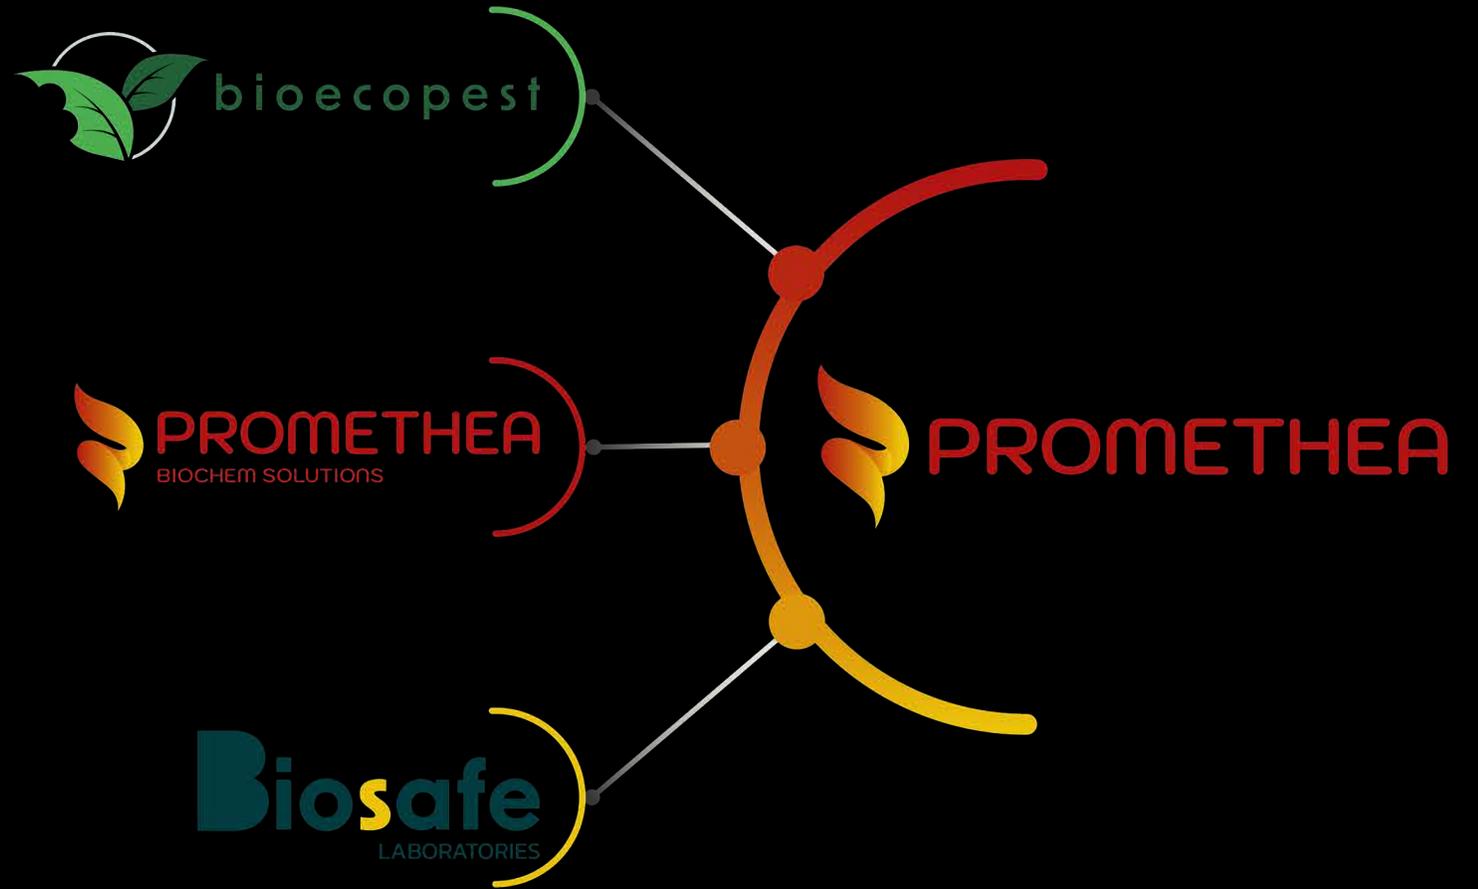

# our solutions

At Promethea, our **ultimate purpose** is to ensure the agrifood industry contributes to improve humans' well-being while protecting the planet and its resources for future generations.

To achieve our goal, we partner with **industry stakeholders**, empowering them with the **right tools, facilities** and **expertise** to **strategically innovate** and comply with laws and regulations.

**We create value for our partners by delivering tailored solutions, from cutting-edge R&D platforms to trusted laboratory analytics and expert consultancy.**

Promethea is organized in two divisions — **Analytica** and **Innova**— each specializing in different activities and competencies. Our fully integrated teams collaborate to deliver synergistic, **end-to-end solutions** to our customers.

Technology Park of Sardinia  
07041 Alghero – Sassari – Italy

[info@bioecopest.com](mailto:info@bioecopest.com)

[Bioecopest](#)

**Bioecopest** is a **CRO** focused on studying the **biological activity** of active ingredients and formulations.

By **combining conventional phenotype assays with advanced multi-omics**

**profiling**, Bioecopest deciphers products' efficacy, their role in biological systems, and their interaction with the environment.

## Our knowledges & competences

- efficacy, from lab to GEP field trials
- CompàreGenome and comparative genomic studies
- mode of action
- multi-omics studies
- molecular biology
- bioinformatics

Via del Tratturello Tarantino 6  
74123 Taranto – Italy

[info@prom-bcs.com](mailto:info@prom-bcs.com)

[Promethea biochem solutions](#)

## Our knowledges & competences

**Promethea Biochem Solutions** is a vibrant and dynamic **CRO** dedicated to delivering **innovative tailored solutions** in **formulation chemistry** to support industrial progress.

Our mission is to assist our customers with **chemical solutions** that are **environmentally sustainable, industrially scalable** and deliver **high efficacy performance**.

- deep eutectic solvents R&D platform
- formulations
- micro- & nano-encapsulation
- actives & extraction services
- production process development

# biosafe laboratories

S.S. 93 Km 56,500

85024 Lavello – Potenza – Italy

[www.biosafelab.it](http://www.biosafelab.it)

[info@biosafelab.it](mailto:info@biosafelab.it)

[Biosafe laboratories](#)

**Biosafe laboratories** is dedicated to safety and quality in the agrifood industry.

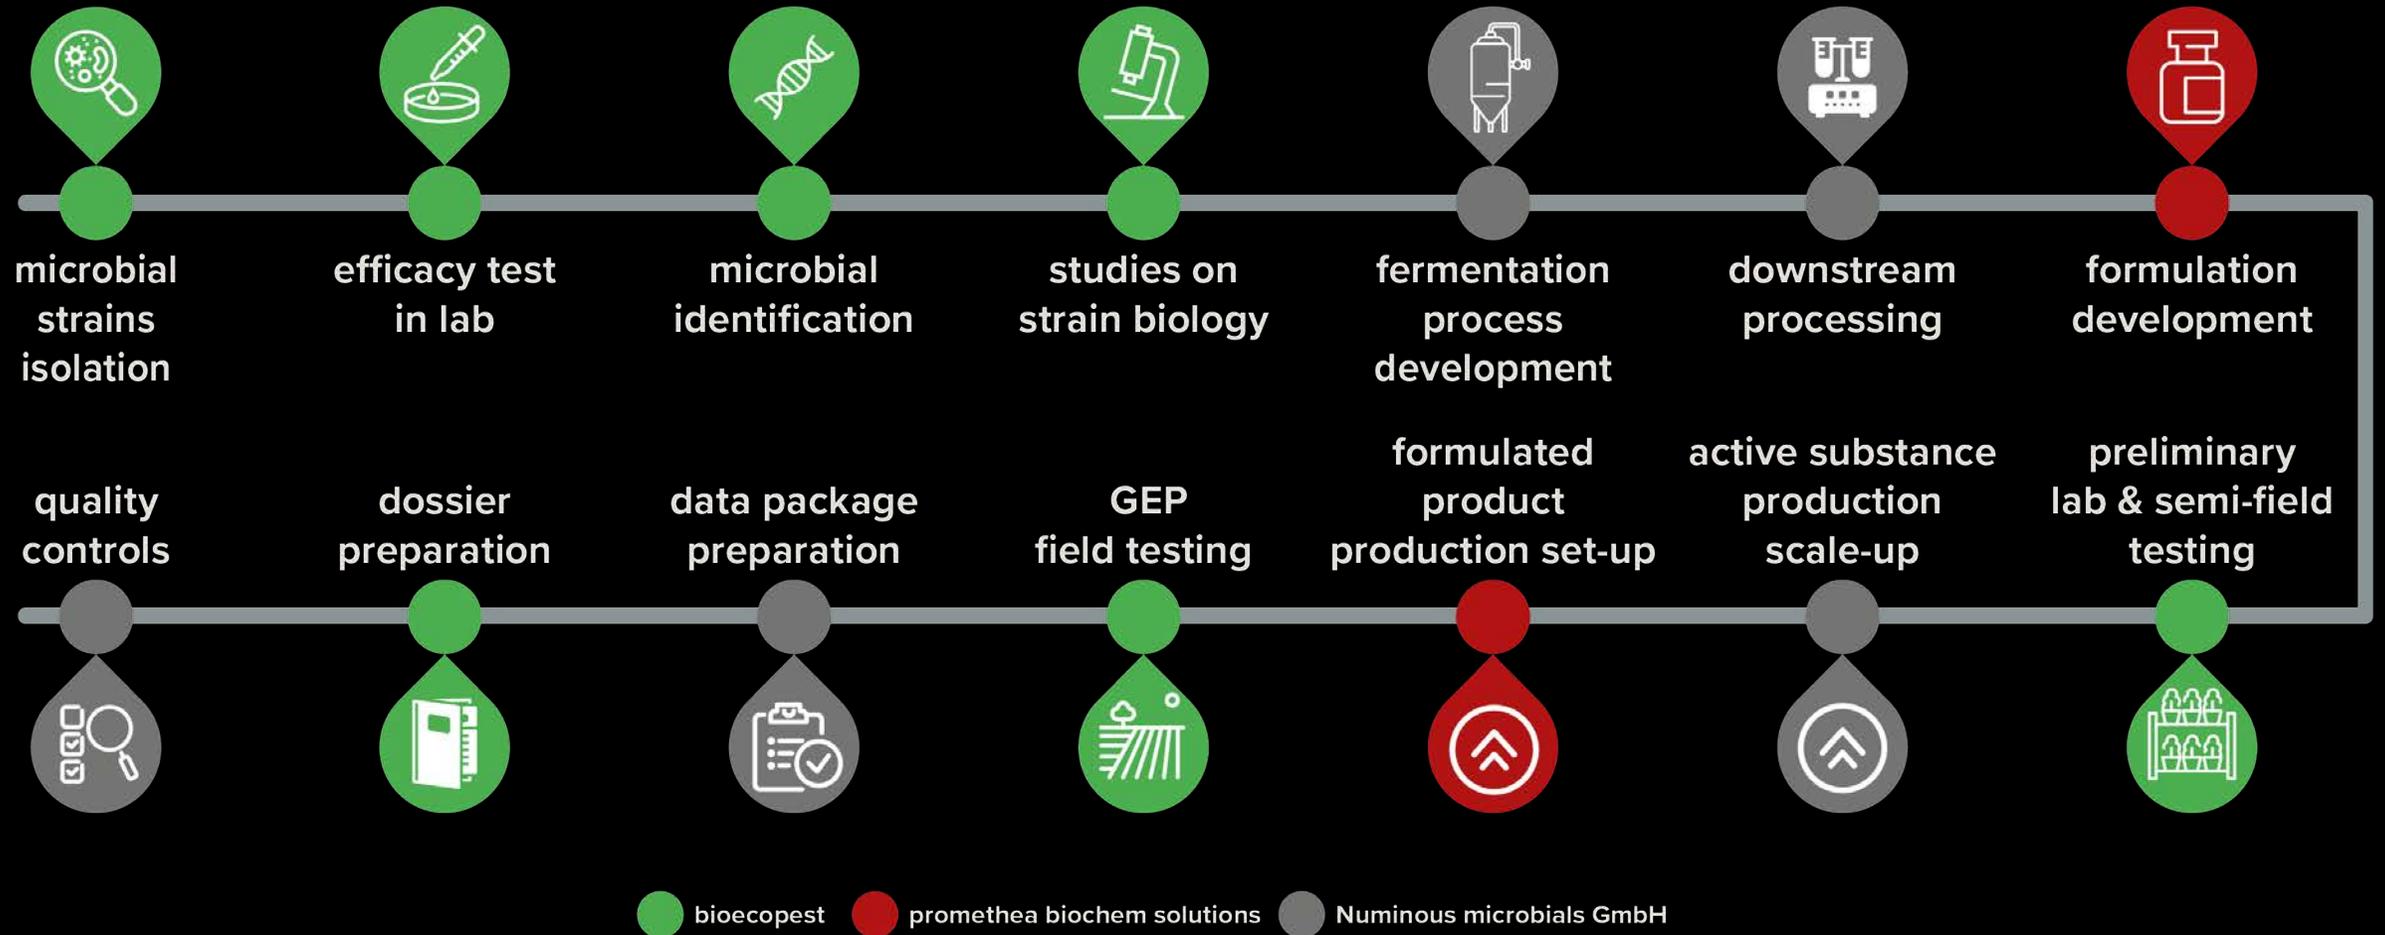

We provide **laboratory solutions** in **environmental, food, feed and fertilizers analytical testing** and agricultural and **HACCP analysis, consulting and training.**

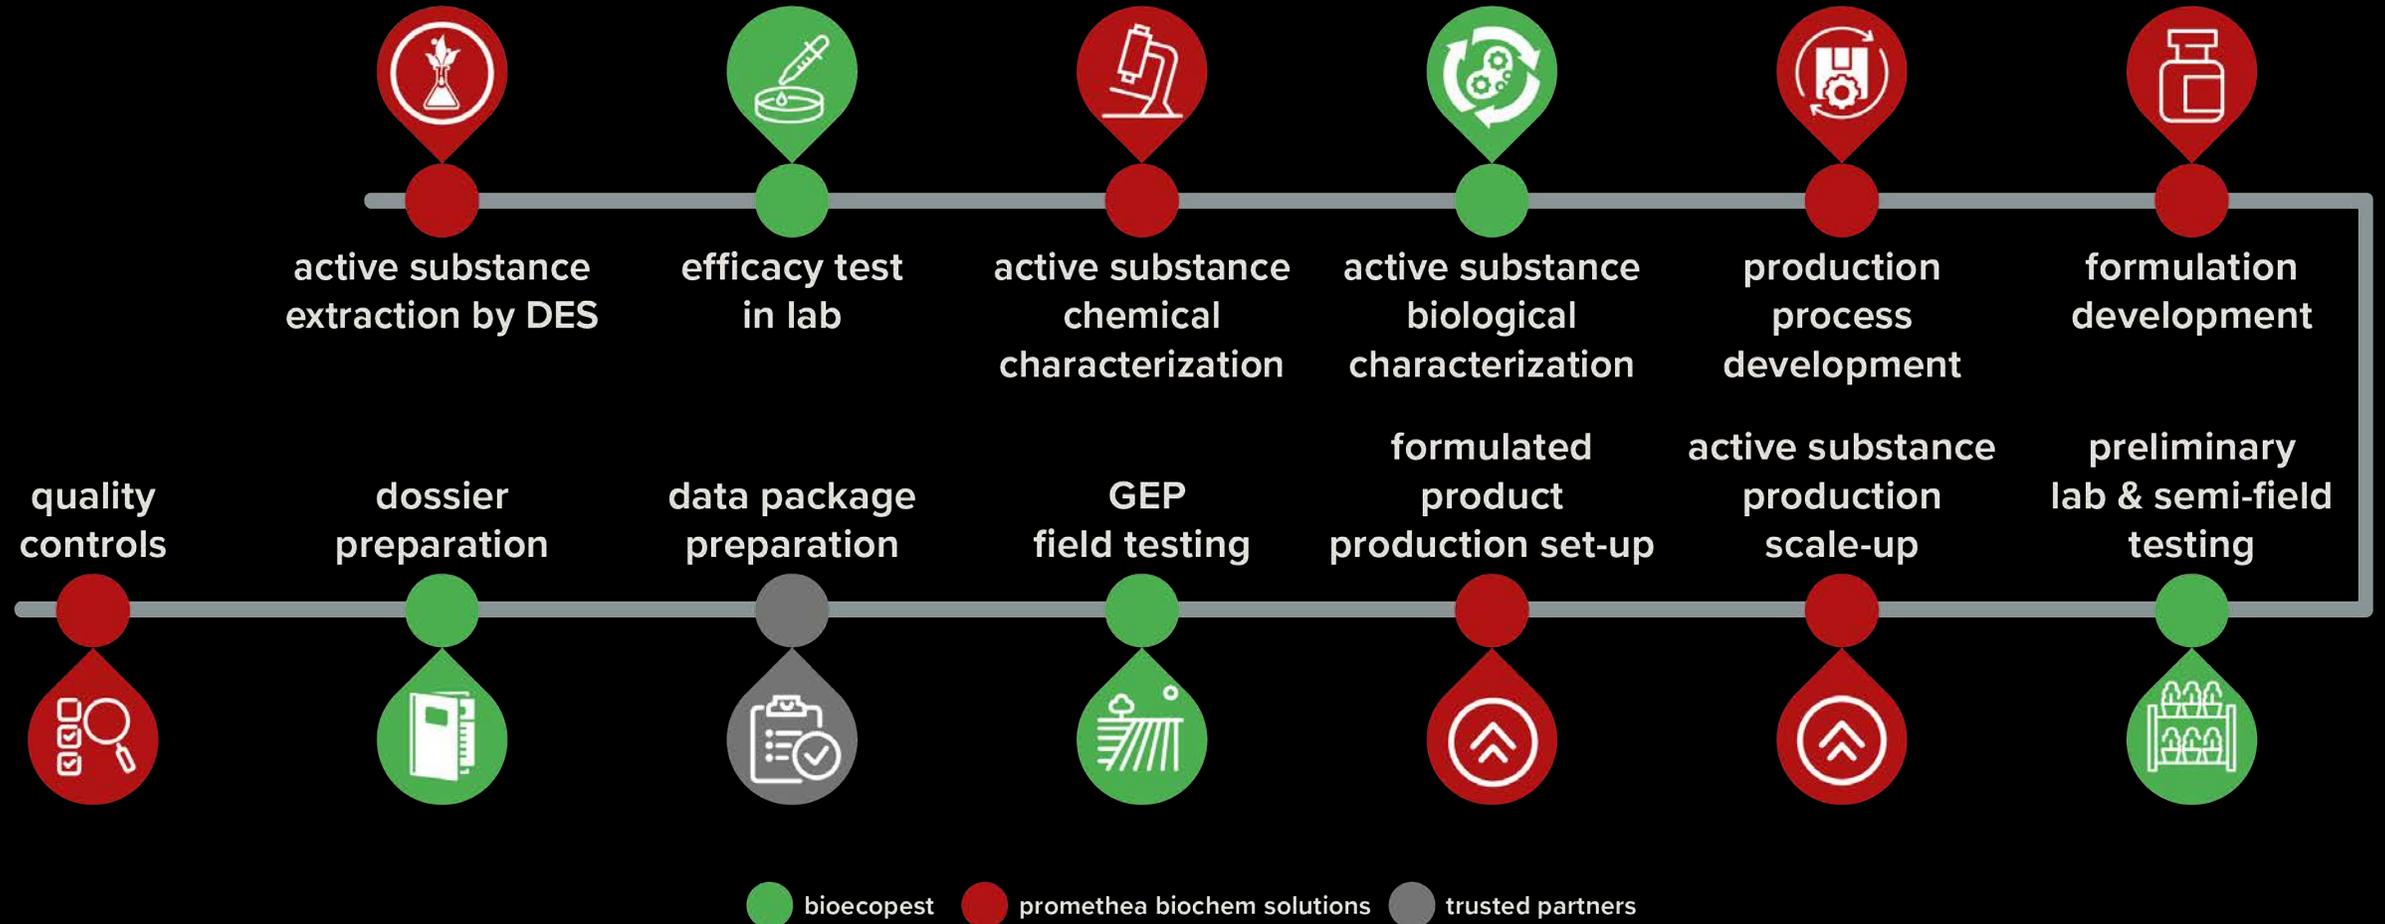

## Our knowledges & competences

- **environmental testing**
- **food & feed testing**
- **fertilizers analytical testing**
- **plant pathology diagnostic**
- **soil analysis**
- **seeds testing**
- **nutrients diagnostic**
- **agricultural consulting**
- **HACCP advising & training**
